From: Midcoast Community Council

Subject: Endorsement of the Seamless Transit Principles

The Seamless Transit Principles are a set of seven guiding principles developed to guide local, regional, and state decision-makers to pursue a seamlessly integrated, world-class transit system that works for people. They principles are:

- Run all Bay Area transit as one easy-to-use system
- Put riders first
- Make public transit equitable and accessible to all
- Align transit prices to be simple, fair, and affordable
- Connect effortlessly with other sustainable transportation
- Plan communities and transportation together
- Prioritize reforms to create a seamless network

The Council endorses these principles to improve transit for all users in the Bay Area. Transit is a significant issue here on the Coast, so we are well aware of the issues with transfers, both within and between transit systems. We hope that our local SamTrans transit system will work towards making these a reality.
