Hello Gregg,

Thank you for sending me over that information. I apologize for the late response to this. I was on vacation and had limited email access.

I have taken the information you provided me and have added it to our Traffic Complaint system. This notifies our officers of traffic hotspots to focus enforcement on when their patrol duties allow.

I cannot promise we can devote officers continuously to this area, but I hope you will see officers more frequently now that this complaint is in our system.

Please keep me updated with ongoing traffic issues.

Respectfully,

Daniel
