Gregg,

The below may give you an idea about the budget. This does not include the C02 monitor(s) and any additional large screen tv's. We already have some at MWSD so I need to look into what we really need.

Also, not sure if our electrical circuits can handle the additional watts from the heating elements. I plan to return what can't be supported. For now, I think about 4 heating elements in the board room and two outside.

All in all, I think we can get the board room as airborne pathogen safe as any outdoor environment for \$2,000-\$4,000.

Thanks,

Clarens
